-----------	------------------	--------------	---------------	---------	--------	----------

Each kit contains specially designed Overflow and Waste shoe test plugs. The plugs are easy to install for testing and easy to remove to finish installation.

BATH DRAIN ROUGH IN PACK KIT

PLUMBING CODES MAY REQUIRE DWV SYSTEMS BE PRESSURE TESTED TO ENSURE THAT THE INSTALLATION IS FREE OF LEAKS. THIS TEST INVOLVES PLUGGING ALL THE OPENINGS AND APPLYING HIGHER THAN NORMAL WORKING PRESSURE TO THE SYSTEM. THIS TYPE OF TESTING ENSURES THAT YOUR DWV SYSTEM IS PROPERLY INSTALLED WITHOUT THE POSSIBILITY OF WATER OR SEWER GASES ENTERING YOUR HOME.
