

Pipe Cover Tube and Flange

From The Keeney Manufacturing Company
The Leader in Plumbing Solutions

- *Provides an easy, and attractive solution for covering rough stub-out pipes*
- *Wall mounted cover tube straightens and supports pipe*
- *Flange conceals and fastens to mounting plate to complete installation*

Description:

The Keeney Pipe Cover Tube and Flange offers a quick, stylish and affordable solution for finishing roughed-in water supply installations. It is perfect for new or retro-fit applications, and can be used with 1/2" Copper, PEX, or CPVC.

The flanged tube and hardware provides the user with a fast and simple method to cover the rough-in hole and rough pipe as well as support and straighten the pipe. The included wall anchors secure the unit to the wall and help to correct drooping or angled pipe stub outs that can occur, especially with PEX. The chrome finish tube and twist lock flange with hidden fastener design complete a professional installation.
