No Crimp™ PEX Valves

LOW-LEAD
NSF/ANSI 61-9 & 372

Patent Pending

PP2886EZ
No Crimp™ PEX Angle Valve
Installed with **K857-30**,
Pipe Cover Tube and Flange

Description:

No Crimp™ PEX products from Keeney feature a quick and easy installation that allows you to get the job done confidently. As the nut is tightened onto the valve, the sleeve is compressed around the PEX pipe, internal barb, and double o-ring seals that produces a leak free connection.

Other PEX connections require large specialized tools and training in order to successfully complete, No Crimp™ connections can be completed with simple hand tools making install identical to common compression connections for other pipe materials. These valves come with the same Keeney quarter turn ball valve technology that has become known and trusted in the industry for quality and durability.

Specifications:

- Double rubber O-ring seal on barbed connector
